Is the nominee available to attend the 2024 Canadian Cardiovascular Congress (Yes/No)

Nomination package

1. **Biography of Nominee:** Please append the nominee's full CCV in a separate attachment. Free form CVs will not be accepted.
2. **Letter of Support (optional):** No more than two (2) letters of support (at a maximum of two (2) pages each) should be submitted. One letter must be provided by the nominee's institution. Letters of reference written by individuals from the nominee's institution must be signed by the Office of the Dean. The second letter must come from outside the nominee's institution (preferably an international collaborator).

Note: The Letter of Support should supplement the information provided in the CCV and contextualize the nominee's achievements. The letter should also address the evaluation criteria considering the following shared priorities of CIHR-ICRH and CCS: collaboration, knowledge mobilization, capacity development, strengthening Indigenous health research, and enhancing equity, diversity, and inclusion in health research.

3. **Please provide a short justification (max 250 words) for your selection:**
Nominations will be assessed against the evaluation criteria listed below in the context of the following shared priorities of CIHR-ICRH and CCS: collaboration, knowledge mobilization, capacity development, strengthening Indigenous health research, and enhancing equity, diversity, and inclusion. Please ensure you provide the appropriate detailed information in order for the review committee to assess the candidates accordingly.

Note:

- If duplicate nominations are received for a single Nominee, Sponsors may be contacted to collaborate on a single coordinated nomination.
- Scientists who have previously received a Distinguished Lecturer Award are not eligible for nomination.
- Nominations for highly competitive candidates not selected may be carried forward for consideration up to three (3) consecutive years from the original nomination year.
- Late nominations or nominations with missing/incorrect documents will not be accepted.

Nominations will be assessed against the following evaluation criteria:

1. Impact of nominee's research in cardiovascular sciences both in Canada and internationally; extent to which the nominee has contributed significantly to the advancement of cardiovascular sciences both in Canada and internationally (e.g., important/key research results or findings) over the last ten years;
2. Relevance/application/impact of nominee's research to clinical outcomes, new intellectual property (IP), or other important breakthroughs in the field of cardiovascular sciences;
3. Demonstrated strength and reputation of the nominee in the field of cardiovascular sciences in Canada and internationally; and,
4. Impact of the nominee's mentorship and training environment on the development of early career scientists and other highly qualified personnel in Canada and internationally.

Justification of nomination (maximum of 250 words)
